Mr & Mrs M Laurence  
Total Package  
10 Sydenham Street  
BROOKVALE NSW 2100

Dear Pat and Mike

Congratulations on achieving 25 years in the contract packaging industry.

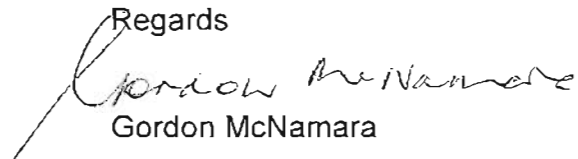

Without going into the archives I am not sure when we first used your services but believe it was some time in the early nineties although I do recall earlier discussions when you were operating below ground level at Harbord in the late 1980s.

Since then we have probably both lost count of the number of products, pack sizes and packaging materials Total Package has packed for Aramac Foods. Suffice it to say that they have included metal and composite cans, pre-made bags, stand-up pouches and nitrogen flushed portion control packs from rewind plus one or two other projects which you would probably prefer to forget.

Over the last decade or so the regulatory environment for food packing has changed frequently and become increasingly complex. Your commitment to staying abreast of these changes and your willingness to share this expertise, as well as your objective and informed advice on all matters related to packaging and packaging materials, has been greatly appreciated.

Best wishes for the future and I trust our relationship endures for many more years.

Regards

  
Gordon McNamara
