

F.I.T. BIOCEUTICALS P/L

Unit 16, 37-41 O'Riordan Street, ALEXANDRIA. 2015. AUSTRALIA

11th April 2007

TO WHOM IT MAY CONCERN

I have been dealing with TOTAL PACKAGE since 1985 when I was employed as National Purchasing Manager at Calorie Control Foods. From there I progressed to Russel's Health Foods (Food division of Blackmores Ltd) where once again I utilised their services. My next move was to Health Minders P/L and once again Total Package was a substantial supplier of packaging services. Finally I am currently employed by FIT Bioceuticals on a contract basis and once again Total Package is a service provider.

Over these 4 companies Total Package provided a wide range of packaging services which included commodity packaging, blending and packaging formulated products, powder packing into bottles and sachet packaging.

The 'mission' statement of Total Package is – 'On Target – On Time' and over a period of 22 years since 1985 I have never been disappointed in my request for scheduled provision of packaging services in spite of some difficult packaging requests.

As my ongoing involvement in the packaging industry draws to a close I look back over a long period of time involving a service provider who was always prepared to go the extra mile to ensure on going customer satisfaction. I wish Mike and Pat every success in their future endeavors.

From the desk of -
PETER DOUGLAS
